The Thames Landscape Strategy is a not-for-profit partnership whose aim is to conserve, enhance and promote the river corridor between Weybridge, Hampton and Kew. Over the past 25 years we have been the catalyst for a real renaissance in the Arcadian Thames and carried out 350,000 volunteer hours of work and raised over £21m to improve the landscape. There is no statutory remit for any of the main riparian owners to carry out this type of work. Our work is only possible because of the generosity of our funders. It costs £325 a day to run the Thames Landscape Strategy (this includes all staff-related costs). Without these funds we would be unable to run our education programme, carry out our advocacy work, volunteering programme or fund raise for project work. Historically the organisation has been largely funded through the public purse but recent Government cut-backs has seen this source of money reduced significantly. Our funding partners now only provide a proportion of the costs needed to support the day-to-day running of the small but dynamic organisation. This year we have to raise £60K of unrestricted funds if we are to continue our conservation and engagement work. By giving to our charity the Father Thames Trust you can help support the work of the Thames Landscape Strategy. Don't forget, if you are a UK tax payer, we can make your contribution go even further with gift aid, adding even more value to your donation at no extra cost to you. For every pound donated to the Thames Landscape Strategy we create £3 of environmental, social and economic benefit!
